Create a Form
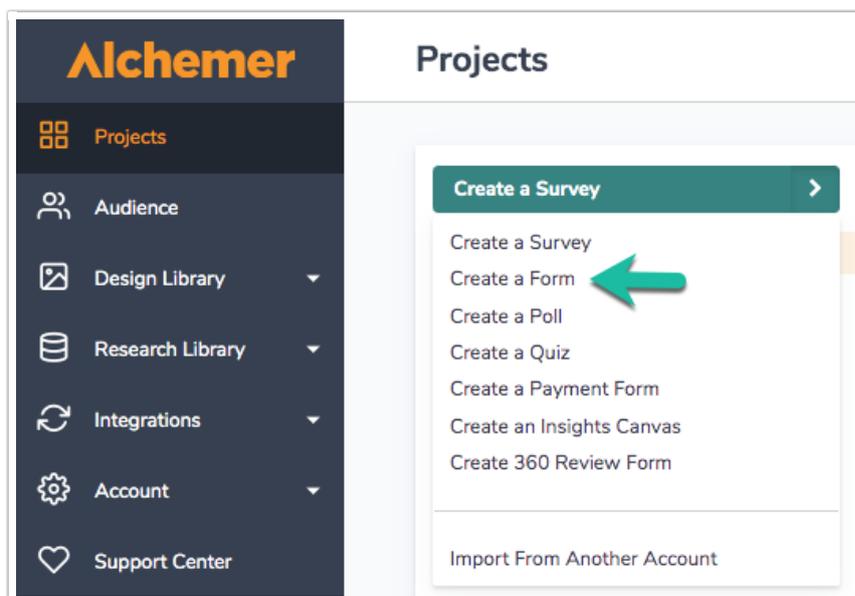

A Form project is identical to a Survey.

1. To create a form, navigate to the Alchemer home page.

2. Click the arrow next to the **Create a Survey** button to see the additional types of projects.

3. Select **Create Form**.

4. Give your form a name and click **Start Building**.

Now you're ready to get started adding questions! We recommend using a Contact Form question type if you are looking to collect contact information from your form respondents.
