

Add a Consent or Agreement Question

Do you need to ask your respondents to consent or agree to a set of terms and conditions before they start taking your survey? Not a problem! You can do so easily using a [Checkbox](#) or [Radio Button](#) question.

Consent/Agreement Setup

Follow these steps to put together your consent/agreement question.

1. On the first page of your survey, click **Add Text / Media**.
2. Paste in your consent statement/terms and conditions/confidentiality agreement.
3. Customize the formatting of your text, e.g., bolding, bullets, etc., as you wish using the editor toolbar below the text and click **Save**.

4. Next, add a [Radio Button](#) or [Checkbox](#) question to follow your Text / Media element. If you wish to provide yes and no options, choose the Radio Buttons question. If you wish to just provide a field for respondents to check you can select the Checkbox question.

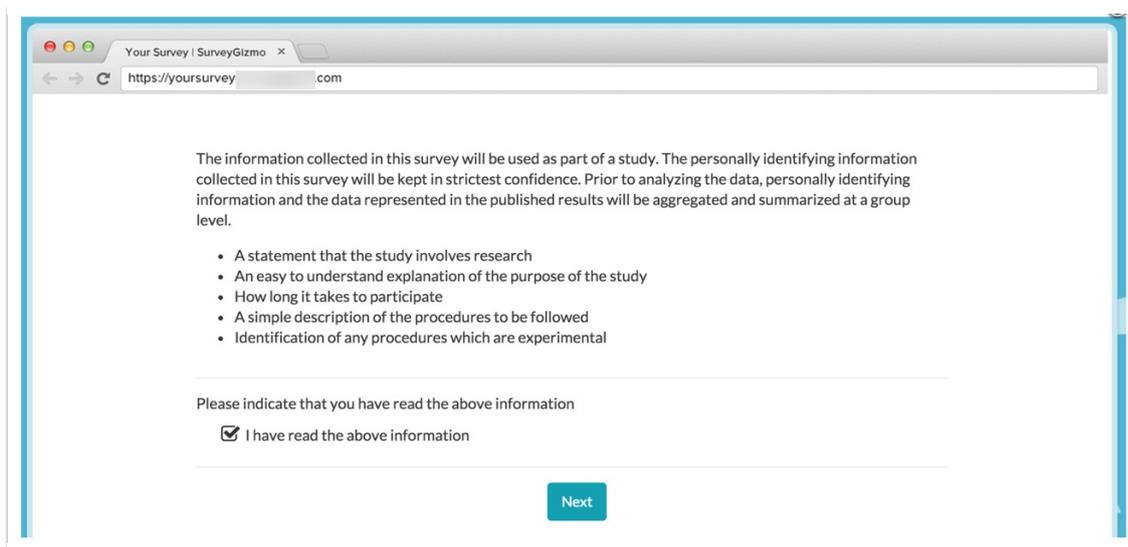

Please indicate that you have read the above information

I have read the above information

Remember to mark this question as [required](#) so that respondents cannot proceed without confirming.

And there you have it! You have now set up the survey to ask for confirmation before moving forward!

Here's what the final product would look like:

Optional Customizations

Add a Signature Question

If you need to collect a signature as part of the respondent's consent you can do so with our [Signature Question](#).

Disqualify Respondents Who Do Not Accept

If you decided to provide yes and no options you may want to disqualify respondents who answer no. Check out our [Set Up Disqualify Logic Tutorial](#) to learn how!
