

Change Color of Grid Rows

We have alternately shaded the rows of our grid questions by default. Depending on the monitor, this can be difficult to see. If you wish to add more contrast to the shading you can do so using a little CSS.

1. At which meals are the food groups represented in your diet?

	Breakfast	Lunch	Dinner	Snacks
Fruits	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Vegetables	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Grains	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Proteins	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Dairy	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Place one of the below CSS codes in your survey theme.

1. To do so go to the **Style** tab and scroll to the bottom of the survey preview to access the link to the **HTML/CSS Editor**. CSS code should be placed on the **Custom CSS** tab.
2. Then, simply replace the #CCCCCC portion of the code with the hex code for the color you wish to use. You can use a color picker like this one to get a hex code: www.colorpicker.com.

Increase the contrast of the alternating shading

This custom CSS will allow you to change the color of all even rows in your grid (row 2, row 4, etc.).

```
.sg-even-row td, .sg-even-row th {  
background-color: #CCCCCC !important;  
}
```
