

Convert Test Responses to Live Responses

Alchemer offers a number of [testing tools](#) to help you preview the data output of your survey prior to gathering real responses. When you record responses via the Test tab, these responses are identified with a Test status within **Individual Responses** and within Reports and Exports.

If you ever have a need for converting these Test responses to *Real* responses, there are a number of ways to do so. You might also consider [deleting Test responses](#), or [filtering Test responses](#) out of your Reports and Exports.

Please note that once you convert a Test response to Real, you will not be able to reverse this action. Real responses cannot be converted to Test responses.

Convert a Single Test Response to a Real Response

If you need to convert a single Test response to a real response, access your survey's responses via **Results > Individual Responses**.

1. Click the checkbox to the left of the response ID for the specific response:

Completes - 3 / Partials - 0 / Disqualified - 0 / Quarantined - 0

<input type="checkbox"/>	ID	Status	Date Submitted
<input type="checkbox"/>	3	New Test	2021/03/01 4:38 pm
<input type="checkbox"/>	2	New Test	2021/03/01 4:38 pm
<input type="checkbox"/>	1	New	2021/03/01 4:37 pm

Bulk Action ▼

- At the top of the **Individual Responses Grid**, a menu displays several actions users can take on a response. Select **Mark Selected Test Responses As Real**. The Response now displays with a new tag, instead of a test tag under the **Status** column:

Completes - 3 / Partials - 0 / Disqualified - 0 / Quarantined - 0

<input type="checkbox"/>	ID	Status	Date Submitted
<input type="checkbox"/>	3	New	2021/03/01 4:38 pm
<input type="checkbox"/>	2	New Test	2021/03/01 4:38 pm
<input type="checkbox"/>	1	New	2021/03/01 4:37 pm
