

# Standard Report: Crosstab Element

Crosstabs are available as stand-alone Crosstab Reports, or as Crosstab Elements added to Standard Reports.

A Crosstab Element (aka Contingency Table) allows you to cross-tabulate at least two questions, one or more in the columns (also known as banner questions) and one or more in the rows (also known as stubs).

Use Crosstabs to examine trends and patterns that are driving your summary results.

	Are you...		Row Total
	Male	Female	
Taken all together, how would you say things are these days--would you say that you are very happy, pretty happy, not too happy?			
<b>Very happy</b>			
Frequency	373	518	891
Row %	41.9%	58.1%	31.5%
Column %	30.3%	32.4%	
Index	94	103	
<b>Pretty happy</b>			
Frequency	712	863	1,575
Row %	45.2%	54.8%	55.6%
Column %	57.8%	53.9%	
Index	104	97	
<b>Not too happy</b>			
Frequency	133	207	340
Row %	39.1%	60.9%	12.0%
Column %	10.8%	12.9%	
Index	90	108	
<b>Chi-square Test</b>	X <sup>2</sup> : 6.5 DF: 2 P-Value: 0.1		-
<b>Column Total</b>	1,232 43.5%	1,400 56.5%	2,832 100%

Standard Report: Crosstab Element
