

Wire Transfers

Alchemer accepts wire transfers for payment of **Annual Account Subscriptions** only. Accounts will be activated when Alchemer is notified that funds have arrived in the Alchemer account.

All invoice charges are in U.S. Dollars. For wire transfers originating outside of the United States in another currency, please check the current exchange rate and adjust the amount sent. Should the amount received be different than the amount invoiced, the term of the account will be adjusted to reflect the amount received.

Please note that additional fees may apply. Contact our support team with questions.
