

Add a Facebook Like Button to Your Survey

Want to add a Facebook Like button in your survey? Here's how!

First, go to the Facebook page you want respondents to like/share and copy the URL.

Next, go to the Facebook Configurator tool:

<https://developers.facebook.com/docs/plugins/like-button#configurator>

Paste your Facebook page URL in the **URL to Like** field, customize the other options, and click **Get Code**.

Like Button Configurator

URL to Like:

Width:

Layout:

Action Type:

Show Friends' Faces Include Share Button

[Get Code](#)

This will produce two bits of code.

Javascript SDK | IFrame

Step 2: Include the [JavaScript SDK](#) on your page once, ideally right after the opening `<body>` tag.

```

<div id="fb-root"></div>
<script>(function(d, s, id) {
  var js, fjs = d.getElementsByTagName(s)[0];
  if (d.getElementById(id)) return;
  js = d.createElement(s); js.id = id;
  js.src = "//connect.facebook.net/en_US/sdk.js#xfbml=1&version=v2.6";
  fjs.parentNode.insertBefore(js, fjs);
})(document, 'script', 'facebook-jssdk');</script>

```

Step 3: Place this code wherever you want the plugin to appear on your page.

```

<div class="fb-like" data-href="https://www.facebook.com/surveygizmo" data-
layout="standard" data-action="like" data-show-faces="true" data-share="true">
</div>

```

Copy the first bit of code to paste into the HTML of your survey's theme. The HTML of your survey's theme can be found on the **Style** tab of your survey. Scroll to the bottom of the survey preview on the **Style** tab to access the link to the **HTML/CSS Editor**. On the **Custom HTML** tab

paste the code at the bottom of the HTML.

```
CUSTOM CSS CUSTOM HTML CUSTOM <HEAD>
3
4 <div class="sg-header-hook-1"></div>
5 </div>
10 </div>
11 <div class="sg-content">
12 <div class="sg-content-hook-1"></div>
13
14 [template("error message")]
15 [template("page title")]
16 [template("page description")]
17 [template("page contents")]
18
19 <div class="sg-content-hook-2"></div>
20
21 <div class="sg-footer">
22 <div class="sg-footer-hook-1"></div>
23
24 [template("button bar")]
25 [template("progress bar")]
26 [template("footer text")]
27
28 <div class="sg-footer-hook-2"></div>
29 </div>
30
31 </div>
32
33 </div>
34
35 <div id="fb-root"></div>
36 <script>(function(d, s, id) {
37   var js, fjs = d.getElementsByTagName(s)[0];
38   if (d.getElementById(id)) return;
39   js = d.createElement(s); js.id = id;
40   js.src = "//connect.facebook.net/en_US/sdk.js#xfbml=1&version=v2.6";
41   fjs.parentNode.insertBefore(js, fjs);
42 }(document, 'script', 'facebook-jssdk'));</script>
```

Next, copy the second bit of code from the Facebook configurator and paste it wherever you would like it to display in your survey (i.e. [Text/Instructions](#) element). In our example above, we placed it in the [Footer](#) of the survey.
