

Style- FAQ and Troubleshooting

Our look and feel options on the Style tab are pretty powerful and, fortunately, pretty easy to use. From time to time questions and issues arise. Get answers to all your styling questions and issues in this list of FAQs.

- + How do I remove the survey title from displaying to my respondents?
- + Why are the option buttons not visible for my respondents?
- + How can I apply the desktop layout to tablets and phones?
- + My grid questions are displaying one row at a time. How do I display grids in their entirety?
- + Why is the font for some of my survey questions different?
- + Why are some of my question titles or answer options blank?
- + How do I keep my survey questions from auto-advancing/disappearing after answering?
