

Glossary of Scripted Solutions

Scripting Solutions

Additional scripting solutions will be added in the future. Please reach out to Alchemer with comments and suggestions on solutions you'd like to see via the link [here](#).

Find specific solutions via various workflows and goals listed below. Each article link displays a overall goal for the scripted solution, as well as steps for success in implementing each script into projects, workflows, and surveys.

Note: When **Previewing** a page in the Builder you must click **Fire Actions** at the top of the screen for these scripts to run properly when testing the build.

Research Solutions

- [Bracket Continuous Numeric Values for Segmenting Reports](#)
- [Copy Logic Quotas](#)
- [Save Timestamp in Specific Timezone and Format](#)

Feature Enhancements

- [Automatic Save and Continue from Share Link](#)
- **Quotas**
 - [Soft Quotas](#) (don't disqualify a respondent late in their survey based on another respondent filling a quota for an earlier question)
- Randomization
 - [Show Random Pages, Questions, or Options](#) (solutions page)
 - [Show Random Rows of a Grid Question](#)
 - [Mirror the Order of Randomized Options in a Later Question](#)
 - [Record Order Randomized Pages Were Shown](#)
 - [Randomize Slider Question Left/Right Labels](#)
- Webhooks - [Use data returned from a Webhook call to prepopulate questions](#)

Scripting and Styling snippets

- [CSS Snippets](#)
- [Javascript Snippets](#)
- [Performing Basic Math](#)
