Alchemer Release Notes: February 3rd, 2021

Below is this week's log of fixes and improvements:

Improvements

[**Performance**] – Replaced "Never Mind" to "Cancel" on Text & Translations under the Tools tab of the survey builder.

Fixes

[**Performance**] – Fix a bug with filtering for "Answered/Not Answered" when reporting on text question types.

[**Performance**] – Allow question library logic to be properly remapped when inserting an unlinked set of questions.

[**Performance**] – The merge code selector for email campaigns was broken. It is now fixed.

[**performance**] – Fixed an issue where newly created SMTP integrations would not display instructions when saved.
