

# Alchemer Release Notes: January, 23, 2025

## Alchemer Digital

### New feature!

[New feature] - We launched Digital Connectors. This powerful feature integrates Alchemer Digital with our Connect platform and hundreds of business systems, helping you take immediate and relevant action based on customer activity in your app or website.

## Alchemer Survey

### Improvements & Bug Fixes

[Update] – Fixed a bug that caused conjoint reporting values to appear incorrectly in reports in some cases.

[Update] – Fixed a bug that incorrectly set the DRP setting for questions added from the question library in some cases.

[Update] – Added more messaging about the ability to restore a deleted question when the question is deleted.

[Update] – Clarified the statuses in the SMS delivery statistics for SMS campaigns.

[Update] – Fixed a bug that caused certain report elements to appear outside the report boundaries in some cases.

[Update] – Fixed a bug that caused labels for some textbox questions to be displayed incorrectly in some cases.

[Update] – Fixed a bug that caused issues with one-at-a-time mode survey taking for grid questions in some cases.

## Alchemer Workflow

### Improvements & Bug Fixes

[Update] – Fixed a bug that caused validation messages to appear empty in Workflow in some cases.
