Alchemer Release Notes: May 7th, 2025

Alchemer Survey

Improvements & Bug Fixes

[Update] – Resolved an issue that prevented static URL variables from being added to survey invite links sent in Alchemer Workflow in some cases.

[Update] – Resolved an issue with the 'is answered' filters in crosstab reporting that caused issues in the report.

[Update] – Introduced a confirmation step for unsubscribes to prevent security scanners from automatically unsubscribing recipients of email campaigns.
